PROGRAM PROFILE

Agency Budget Proposal FY 2027

Agency: DOST-Philippine Science High School System
Program: Completion of Infrastructure Standards of Existing Philippine Science High School Campuses
Allotment Class: Maintenance and Other Operating Expenses (Scholarship Expense)
Implementation Period: January - December 2027

Budgetary Requirement: ₱ 240,000,000.00

Program Overview:

The **Completion of Infrastructure Standards of Existing Philippine Science High School (PSHS) Campuses** project aims to address critical infrastructure gaps and ensure that all campuses meet the prescribed standards for quality science education delivery. In line with the mandate of the PSHS System (PSHSS) to provide world-class STEM education, the project focuses on upgrading, expanding, and completing essential facilities that support academic, administrative, and student development functions.

The project covers key infrastructure investments, including the expansion of the PSHS System Training and Administration Center under the Office of the Executive Director, the construction of a gymnasium at the PSHS Zamboanga Peninsula Region Campus in Dipolog City, and the development of an Integrated Student Support Services facility at the PSHS SOCCSKSARGEN Region Campus in Koronadal City.

Through these interventions, the project seeks to enhance institutional capacity, improve student welfare and engagement, and provide enabling environments that support holistic learning, training, and organizational efficiency across PSHSS.

Program Objective:

The project aims to:

1. Complete and standardize critical infrastructure across existing PSHS campuses to meet prescribed facility requirements for quality STEM education;
2. Enhance institutional and administrative capacity through improved training and coordination facilities at the system level;
3. Promote holistic student development by providing spaces for physical, social, and psychological well-being;
4. Improve access to integrated student support services, ensuring timely and efficient delivery of guidance, health, and wellness programs;
5. Strengthen the overall learning environment by ensuring safe, functional, and future-ready infrastructure across campuses.

Program Expected Outputs

- Completed and operationalized priority infrastructure projects across targeted PSHS campuses, including:
    - Expanded PSHS System Training and Administration Center;
    - Fully functional gymnasium at PSHS Zamboanga Peninsula Region Campus;
    - Established Integrated Student Support Services Facility (Dormitory) at PSHS SOCCSKSARGEN Region Campus.
- Standardized campus infrastructure compliance with PSHSS facility benchmarks and national standards for science-oriented secondary education.
- Enhanced system-wide training and administrative capacity, with increased frequency and quality of faculty, staff, and leadership development programs conducted at the expanded Training and Administration Center.
- Improved delivery of student support services, including guidance, health, psychosocial, and wellness programs, through centralized and purpose-built facilities.

Target Beneficiaries

- PSHSS Students (current and future scholars) across all campuses, particularly those in:
    - Zamboanga Peninsula Region Campus (Dipolog City)
    - SOCCSKSARGEN Region Campus (Koronadal City)
- Teaching and Non-Teaching Personnel of the PSHS System, including faculty, administrators, and support staff who will benefit from improved training, coordination, and working environments.
- PSHSS Management and Offices, especially the Office of the Executive Director, through strengthened system-wide operational and training capacity.
- Prospective Students and Families, who will gain increased access to high-quality, well-equipped STEM learning environments.
- Wider Community and Stakeholders, including partner institutions and local communities, through improved facilities that may support outreach, events, and collaborative programs.

Program Components:

This project involves the construction, expansion, and completion of priority infrastructure components across selected PSHS campuses to align with standard facility requirements:

- **Expansion of the PSHS System Training and Administration Center (₱80 Million)** under the Office of the Executive Director to strengthen system-wide training, capacity-building, and administrative coordination functions;
- **Construction of a Gymnasium** at the PSHS Zamboanga Peninsula Region Campus in Dipolog City to support physical education, co-curricular activities, and large-scale school events;
- **Construction of an Integrated Student Support Services Facility** (Dormitory) at the PSHS SOCCSKSARGEN Region Campus in Koronadal

City, which will centralize guidance, health, wellness, and student development services.

The project ensures that infrastructure development keeps pace with increasing student population and evolving educational demands, particularly in providing safe, inclusive, and learner-centered environments.

BUDGETARY REQUIREMENTS ('000):

Campus/Office	PS	MOOE	CO	Total
PSHS System - Office of the Executive Director				
Expansion of PSHS System Training and Administration Center	-	-	80,000	80,000
PSHS - Zamboanga Peninsula Region Campus in Dipolog City				
Construction of Gymnasium	-	-	100,000	100,000
PSHS - SOCCSKSARGEN Region Campus in Korondal City				
Construction of Integrated Student Support Services (Dormitory)	-	-	60,000	60,000
Total	-	-	240,000	240,000

Program Impact

- Improved quality of STEM education delivery across the PSHS System, supported by upgraded and standardized infrastructure aligned with global and national benchmarks.
- Enhanced student outcomes, including academic performance, well-being, and holistic development, driven by access to conducive learning and support environments.
- Strengthened institutional resilience and operational efficiency, with modernized facilities enabling better coordination, training, and service delivery.
- Increased equity in access to quality science education, as all campuses progressively meet uniform infrastructure standards regardless of geographic location.
- Greater student engagement and participation in physical, social, and developmental activities, contributing to well-rounded scholar development.
- Long-term contribution to national development, through the sustained production of highly competent STEM graduates equipped to contribute to innovation, research, and nation-building.

List of Locations:

PSHS System - Office of the Executive Director (Central Office)
Quezon City, Metro Manila

PSHS - Main Campus in Diliman, Quezon City
Quezon City, Metro Manila

PSHS - Ilocos Region Campus in Ilocos Sur
San Ildefonso, Ilocos Sur

PSHS - Cagayan Valley Campus in Nueva Vizcaya
Bayombong, Nueva Vizcaya

PSHS - Cordillera Administrative Region Campus in Baguio City
Baguio City, Benguet

PSHS - Central Luzon Campus in Clark Freeport Zone
Clark Freeport City, Pampanga

PSHS - CALABARZON Region Campus in Batangas City
Batangas City, Batangas

PSHS - MIMAROPA Region Campus in Romblon
Odiongan, Romblon

PSHS - Bicol Region Campus in Camarines Sur
Goa, Camarines Sur

PSHS - Western Visayas Campus in Iloilo City
Jaro, Iloilo City

PSHS - Central Visayas Campus in Cebu
Argao, Cebu

PSHS - Eastern Visayas Campus in Leyte
Palo, Leyte

PSHS - Zamboanga Peninsula Region Campus in Dipolog City
Dipolog City, Zamboanga del Norte

PSHS - Northern Mindanao Campus in Lanao del Norte
Balo-i, Lanao del Norte

PSHS - Davao Region Campus in Davao City
Davao City, Davao del Sur

PSHS - SOCCSKSARGEN Region Campus in Koronadal City
Koronadal City, South Cotabato

PSHS - Caraga Region Campus in Butuan City
Butuan City, Agusan del Norte
